

Understanding Your Damage Liability

Insurance

Your rental includes insurance which covers damage to the vehicle. However, you do have an excess which you are liable to pay up to per occurrence.

The insurance is called **Collision Damage Waiver**. Included in your price but with a standard excess:

Cars = **£1000**.

Premium Cars, MPV/People Carriers, Vans = **£1200**

We offer a product called **Excess Reduction Waiver**, which is an additional cost, but will reduce your excess:

Cars = **£100**.

Premium Cars, MPV/People Carriers, Vans = **£350**

Tyre and Glass

Insurance does not cover tyre and glass damage such as tyres, windscreen, side windows, rear window and mirror glass.

As standard you would be liable for the **full cost** of repair or replacement of each item which was damaged during your rental.

We offer a product called **Tyre & Glass Protection**, which is an additional cost, but will reduce your liability for one item per rental to **£0**.

Terms and conditions apply.
